AWS Well Architected Review

An architectural assessment based upon the AWS Well Architected Framework, providing a health check of your cloud services

Want to increase the business value delivered by your cloud solution?

GlobalLogic's AWS Well Architected Review provides you with a detailed, 1:1 consultation with our cloud team and offers recommendations to help you meet best practices and increase the business value delivered by your preferred cloud solution. What's more, the Well Architected Review is free, and you could be eligible for up to $5,000 credit from AWS. As an Advanced AWS Partner, we're ready to help you identify, address, and increase the business value delivered by your cloud solutions.

Operational Excellence

Gain the ability to run and monitor your systems so they deliver business value and continually improve supporting processes and procedures.

Reliability

Enable your system to recover from infrastructure or service disruptions, dynamically acquire computing resources to meet demand, and mitigate disruptions such as misconfigurations or transient network issues.

Performance Efficiency

Learn how to use computing resources efficiently to meet system requirements and maintain that efficiency as demand changes and technologies evolve.

Cost Optimization

Run systems so they deliver business value at the lowest price point.

Security

Protect information, systems, and assets while delivering business value through risk assessments and mitigation strategies.

The 5 Pillars of the Well Architected Framework

AWS Well Architected Review

How It Works

Benefits of the Well Architected Review

- Understand and reduce risk associated to your cloud solution
- Reduce operational costs
- Minimize system failures
- Identify and fix security gaps
- Maintain operational efficiency
- The review is free, so what do you have to lose?

Prepare (½ Day)

Identify the workload to be reviewed and the stakeholders from customer side.

Execute (½ Day)

Conduct a free review using the AWS Well Architected Framework.

Report (2 Days)

Create a detailed report aligned to AWS best practices. This will cover improvements needed and how these can be resolved over the next 3 months, as well as high risk issues that need to be resolved within the next 30 days. This report will be discussed with you and next steps agreed.

Remediate

The assessment report categorizes items to help prioritize remediation. If the customer chooses GlobalLogic to support them resolve the issues identified, they are eligible for up to $5,000 credit from AWS.

Why Work with Globalogic?

GlobalLogic is known in the industry for delivering first-class solutions that leverage our knowledge of best practices, as well as industry-wide legislations. This experience makes us best suited for crafting hassle free solutions – and has helped us best serve our customers for over a decade.

Our recognition with AWS as an Advanced AWS Partner means we work inseparably with AWS, providing a peak level of service at a standout velocity. We incorporate the best Architects and Solvers who translate customer aspirations accurately right from the go, helping to accelerate the realization of business-inspired initiatives onto the AWS platform.

Ready to identify, address, and increase the business value delivered by your cloud solutions in as little as three months?

Let's start today.
